<b>Fraction</b>	Residual	<b>Number of wastetanks</b>	6 pcs.
<b>Tank type</b>	Horizontal tanks	<b>Number of chutes inlets</b>	93 pcs.
<b>Pipe dimension</b>	Ø315mm	<b>Pipe material</b>	PE100 Safetech PN 6.3
<b>Pipe length Approx.</b>	260 m.		

### Description of the project

Copenhagen's new neighborhood.

Central Copenhagen is getting a brand new urban neighborhood with urban life, business and housing. With Copenhagen Central Station as its neighbor, the area will be developed and the city and the water will be linked together in a new green connection. Since 1912, the area has been home to Denmark's postal service, but now a whole new chapter is being written for the district, called Postbyen.
